

News Flash!

On Saturday 7/30/2005, I found out more information on that mailing some of us, not all of us, received from a group called "CITIZENS TO SAVE TAHUYA"

It's not addressing the Port of Tahuya!

It's addressing their fire district 8 and other things that happen in the "town of Tahuya"

They actually sent out two pages with MISINFORMATION!!!

HEY, THEY JUST DON'T GET IT!!!

We have found out who requested the addresses of the registered voters. You can only guess who eh? This mailing from these people called "Citizens To Save Tahuya", also requested you to

VOTE NO TO RECALL

(misinformation again)

LIAR, LIAR PANT'S ON FIRE!!!

(I'm sorry I couldn't resist, call me childish, call me sensitive... but that's my honest opinion)

This is incorrect information they have told you to do. If you vote **No you will NOT RECALL** Commissioner Olsen. You will keep her as a Port of Tahuya Commissioner by voting NO.

YOU MUST VOTE YES TO RECALL PORT OF TAHUYA, COMMISSIONER CYNTHIA OLSEN

**Please make sure you have your mail in ballots to
RECALL COMMISSIONER CYNTHIA OLSEN
in the mail no later than August 16, 2005**

You must push out the yes tab to recall her!

If you have any doubts about recalling this Commissioner Olsen, please go to the site listed below and read about it.

Subject: Re: [TRVCA234] OLSEN'S POSSE, JUST DON'T GET IT!!!

I have only been to one or two of the meetings. And people that were not known to Mrs. Olsen were felt to be outsiders or intimidated. Her own daughters boyfriend tried to intimidate me but it didn't work. When I tried to ask a question, she stated that she didn't have to answer me & if I wanted an answer I should ask the other people in the crowd. What she forgets is that she works for US the people who voted her in office. She is an elected official. And she works for the public who put her in office and not for her own public gain. So she should be thrown from the public office in which she took an oath to uphold in good faith for her voting public. So far she has only tried to forward her career and financial gain through us her. She has spent too much of our hard earned tax money on a stupid Access Plan than would thought by a \$70.00 a month job should. We need to get back to basics and find out exactly what our community really needs. I would like to thank everyone for letting me voice my opinion on this matter.
